Subject: City Council Short Term Referral Process – Monthly Update

INTRODUCTION

This report is a monthly update on the status of short term (90-day) and other date-certain Council referrals.

CURRENT SITUATION AND ITS EFFECTS

In this context, tracking refers to a manually updated chart (Attachment 1). The May 15, 2018 Council referral establishing the monthly update includes both “short term” and “date-certain” referrals. Short term referrals are referrals that staff determines they will be able to complete in approximately three months. Date-certain referrals are those which contain a specified date of completion at the time they are approved by the City Council. Currently, the City only tracks short term referrals in an Excel spreadsheet.

Providing a monthly update on all short term and date-certain referrals will allow Council and the public to see the status of these referrals and any circumstances which lead to delays.

BACKGROUND

In 2016, the City Council adopted a system of Re-Weighted Range Voting (RRV) to prioritize the outstanding City Council referrals to staff. The RRV system enables City Council to provide direction to staff on which referrals are highest priority to the City Council. However, that process does not provide information on the status of short term or date-certain referrals. While many short term or date-certain referrals were “updated” through being completed and presented to Council as consent or information items, there was no comprehensive overview of this subset of referrals.

ENVIRONMENTAL SUSTAINABILITY

There are no identifiable environmental effects or opportunities associated with the subject of this report.

POSSIBLE FUTURE ACTION

The City Council may wish to direct staff to evaluate this process after it has been in place six months.

FISCAL IMPACTS OF POSSIBLE FUTURE ACTION

No direct fiscal impact. Greater efficiencies in staff resources due to prioritization of work and alignment with budget and strategic plan goals.
