To: $\quad$ Honorable Mayor and Members of the City Council
From: Dee Williams-Ridley, City Manager
Submitted by: Henry Oyekanmi, Director, Finance Department
Subject: FY 2019 Fourth Quarter Investment Report: Ended June 30, 2019

## SUMMARY

The City's investment policy requires that a quarterly investment report be submitted to the City Council on the status of the investment portfolio. The report includes all investments managed by the City of Berkeley and provides information on the types, values (par, book, and market), term, and yield of each security.

- The return on pooled investments for the quarter ended June 30, 2019 was $2.27 \%$ or $.17 \%$ less than the $2.44 \%$ earned by the State Local Agency Investment Fund (State LAIF), which is the benchmark for investment performance used by the City. The return on pooled investments of $2.27 \%$ for the quarter ended June 30, 2019 was 7.5 basis points more than the rate of $2.195 \%$ earned in the quarter ended March 31, 2019.
- The average return on all Retiree Medical Trust Fund investments was $3.639 \%$ for the quarter ended June 30, 2019.

## CURRENT SITUATION AND ITS EFFECTS

Attached is a summary of quarterly reports for fiscal year 2019 Fourth quarter ending June 30, 2019 representing the status of the City's investment portfolio. The report includes all investments managed by the City of Berkeley and provides information on the values (par, book, and market), term, and yield of each security.

Summary information by type of security and detailed information on each security is provided on Exhibit 2-A. An evaluation of portfolio performance for this accounting period compared to the previous three accounting periods is also included in Attachment 1.

## A. Portfolio Results

As a result of the differences in the investment policies of different cities, including responsible investing policies, maturity restrictions, investment restrictions, etc., it was difficult for the City of Berkeley to come up with a reasonable performance measure for pooled cash investments. In order to provide some measure of the relative performance of the City's investment returns, many years ago the City established the State Local Agency Investment Fund (LAIF) as the performance measure to be reported in the quarterly investment reports, since many local governments invested significant portions of their investment portfolios in LAIF.

LAIF was intended to be a reference point to compare the City's investment performance against, rather than a true performance measure, since most cities typically earn a yield higher than LAIF during normal interest rate environments, and because LAIF's average maturity of its investments is generally shorter than most cities. As a result, past City Councilmembers requested that information about the rates earned by other California cities be included in the quarterly investment reports for comparison purposes, despite the differences in the investment policies of the various cities.

At the present time, the interest rate environment is far from being normal. On June 19, 2019, the Federal Funds rate range, which is the most important measure of short-term interest rates, was at $2.25 \%-2.50 \%$, which was significantly higher than the 2 -year Treasury (1.74\%), the 5-year Treasury (1.77\%), the 10-year Treasury (2.03\%), and nearly as high as the 30 -year Treasury ( $2.54 \%$ ). This environment is highly unusual, and currently results in portfolios with shorter average maturities outperforming portfolios with long-term maturities, which is the opposite of performances in a normal interest rate environment.

1. Liquidity of Portfolio:

The average investment in the pooled portfolio matured in 915 days as of June 30, 2019. This is 202 days more than the 713 maturity days of as of March 31, 2019.
2. Comparison of Results to Performance Measures - Pooled investments: Quarter Ended June 30, 2019
The City's yield on investments for the quarter ended June 30, 2019 was $2.27 \%$, an increase of 7.5 basis points (. $075 \%$ ) from the $2.195 \%$ earned during the quarter ended March 31, 2019. The average yield on a 90 -day Treasury bill at the end of the quarter ended June 30, 2019 was $2.087 \%$, a decrease of 29.4 basis points (.294\%) from the $2.381 \%$ at the end of the previous quarter.

As summarized in Table 1, staff's overall results fell short of the performance measure for the quarter by 17 basis points (.17\%). Staff's performance was under the performance measure in April by 27.3 basis points ( $-.273 \%$ ); under the performance measure in May by 17.8 basis points (-.178\%); and, was under the performance measure in June by 6.2 basis points (-.062\%). The performance measure for the return on investments is compared to the rate of return of the State LAIF.

## Table 1

| For Quarter Ending June 30, 2019 |  |  |  |
| :--- | ---: | ---: | ---: |
| Period | City | State LAIF | Difference |
| April-19 | $2.172 \%$ | $2.445 \%$ | $-0.273 \%$ |
| May-19 | $2.271 \%$ | $2.449 \%$ | $-0.178 \%$ |
| June-19 | $2.366 \%$ | $2.428 \%$ | $-0.062 \%$ |
| April-June 19 | $2.27 \%$ | $2.44 \%$ | $-0.170 \%$ |

3. Investment Results-Retiree Health Insurance Funds:

Average interest rates earned on the retiree health insurance trust funds for the quarter ended June 30, 2019 compared to the quarter ended March 31, 2019, were as follows:

Table 2

| EARNED INTEREST RATES |  |  |
| :--- | ---: | ---: |
| For Quarter Ended 3/31/2019 Compared To 6/30/2019 |  |  |
| Trust Fund | 3rd Qtr <br> $\mathbf{0 3 / 3 1 / 1 9}$ | 4th Qtr <br> $\mathbf{6 / 3 0 / 1 9}$ |
| Retiree Medical Trust Fund (Misc <br> Employees) | $4.267 \%$ | $3.932 \%$ |
| Fire Retiree Medical Trust Fund | $3.566 \%$ | $3.580 \%$ |
| Police Retiree Medical Trust Fund | $3.443 \%$ | $3.405 \%$ |

The rates earned on these plans will continue to drop slightly over the next few quarters as staff reinvests the proceeds of maturing securities at lower rates.

Details related to retiree health trust fund investments are in Attachment 3, Exhibits 3A, 3-B, and 3-C of this report.

## B. Discussion of Interest Rate Environment and Outlook

On June 19, 2019 the Federal Open Market Committee issued its statement on the economy and interest rates:

Information received since the Federal Open Market Committee met in May indicates that the labor market remains strong and that economic activity rose at a moderate rate. Job gains have been solid, on average, in recent months, and the unemployment rate has remained low. Although growth of household spending appears to have picked up from earlier in the year, indicators of business fixed investment have been soft. On a 12-month basis, overall inflation and inflation for items other than food and energy have declined and are running below 2 percent. Market-based measures of inflation compensation have declined; and survey-based measures of longer-term inflation expectations are little changed.

Consistent with its statutory mandate, the Committee seeks to foster maximum employment and price stability.

The Committee continues to view sustained expansion of economic activity, strong labor market conditions, and inflation near the Committee's symmetric 2 percent objective as the most likely outcomes, but uncertainties about this outlook have increased. In light of these uncertainties and muted inflation pressures, the Committee will closely monitor the implications of incoming information for the economic outlook and will act as appropriate to sustain the expansion, with a strong labor market and inflation near its symmetric 2 percent objective.

## Yield Trend

In support of the above goals, the Committee decided to maintain the target range for the federal funds rate at 2-1/4 to 2-1/2 percent.

In determining the timing and size of future adjustments to the target range for the federal funds rate, the Committee will assess realized and expected economic conditions relative to its maximum employment objective and its symmetric 2 percent inflation objective. This assessment will take into account a wide range of information, including measures of labor market conditions, indicators of inflation pressures and inflation expectations, and readings on financial and international developments.

In the current interest rate environment, staff expects returns in FY 2020 to be about the same as those returns earned in FY 2019. Also, the City's rate earned is expected to be about the same as the City's benchmark (State LAIF) and the City's return to be comparable to rates earned by most other cities in California. A sample of rates earned by Northern and Southern California cities is reflected in table 3 below (previously only Northern California cities were included):

## Table 3

| Other California Cities <br> Earned Interest Rates |  |
| :--- | ---: |
| For the Quarter Ending June 30, 2019 |  |
| City | Rates Earned |
| Sacramento | $2.57 \%$ |
| San Francisco | $2.45 \%$ |
| San Diego | $2.45 \%$ |
| Oakland | $2.42 \%$ |
| Palo Alto | $2.38 \%$ |
| San Jose | $2.35 \%$ |
| Berkeley | $\mathbf{2 . 2 7 \%}$ |
| Los Angeles | $2.21 \%$ |
| Riverside | $2.13 \%$ |
| Santa Monica | $2.05 \%$ |

The City's investment strategy will continue to focus on (1) locking in reasonable rates on long-term investments, when opportunities for attractive rates present themselves and (2) matching of investment maturities to cash flow.

## BACKGROUND

- Pooled Investments

Short-term cash is invested primarily in government sponsored enterprises (referred to as Federal Agency) notes and medium-term corporate notes for periods of one to five years. Additional cash is invested in a money market fund or overnight securities to meet the liquidity needs of the City.

In some cases, the City may have investments with a current market value that is greater or less than the recorded cost. These changes in market value are due to fluctuations in the market and have no effect on yield, as the City does not intend to sell securities prior to maturity.

- Retiree Health Trust Fund Investments

The City agreed to provide retiree Health insurance coverage for fire, police and miscellaneous employees under certain terms and conditions. An actuarial study commissioned by the City many years ago determined that, in addition to City Contributions, an average rate of return of $7 \%$ on miscellaneous employees trust fund assets invested must be achieved to fund the retiree health benefit at the desired $70 \%$ level. Primarily as a result of the Federal Reserve Board's decision to keep short-term rates near zero for the last 12 years, the average rate currently earned is significantly below that 7\% level. City Finance Department staff manages these investment portfolios.

## ENVIRONMENTAL SUSTAINABILITY

There are no identifiable environmental effects or opportunities associated with the subject of this report.
